My number one choice for advice on technical points, and someone who provides excellent strategic advice.

- Chambers & Partners

Ben Patten QC's expertise lies in a range of commercial work, including construction disputes, professional liability claims, commercial litigation and insurance and reinsurance disputes.

Described as "calm under pressure and always willing to stick his neck out on a case" he acts for both claimants and defendants in the TCC, Commercial and Mercantile Courts, Queen's Bench Division, Chancery Division and Arbitrations. He also appears in the Court of Appeal and in expert determinations, mediations and other ADR hearings.

Chambers and Partners has described Ben as greatly respected for his effective manner in court, "he has a very nice way of presenting an argument which appeals to judges hugely," and his 'good commercial instincts'. 'Peers are impressed by his skills as an advocate generally, and particularly note his strength in solicitor negligence cases' as well as the "incredibly calm," "persuasive" approach he demonstrates in his construction and professional indemnity work for a client base of developers, contractors and insurers. Previous editions says of him "You can throw anything his way and he will deal with it." "He has a mild and gentle manner with clients, but is determined and clear in his advice. He is also very effective as an advocate, as he's calm but good at focusing on the right issues and directing judges' attention to them." "Technically he's one of the best around. He is also highly responsive." Ben is also rated as a leading Silk by the Legal 500.

Ben has also been described in the Directories as being "really at the top of his game", "a top performer who has a very concise and effective drafting, advisory and advocacy style" and "a star of the future". In 2009, the year before he took Silk, he was awarded Chambers and Partners Professional Negligence Junior of the Year.

A team player, Ben's style is to roll up his sleeves and get involved. He has considerable experience of very substantial commercial litigation, including group actions and the larger TCC cases. He is relaxed and approachable, whilst at the same time being businesslike and tenacious in pursuing the best outcome for the client. He has a keen sense of the client's commercial interests and can cut through the complexities of a difficult case to get to the heart of the issues.

Ben is the author of "*Professional Negligence in Construction*" [Spon] 2003, a co-editor of the Construction Professionals Chapter in "*Jackson & Powell*" and a co-editor of the Solicitors' Chapter in the *Professional Negligence and Liability Looseleaf*. He is also a frequent lecturer and author of legal articles. Ben is a member of TECBAR, COMBAR, the Professional Negligence Bar Association and the London Common Law & Commercial Bar Association. He has also been called to the Bar in the Republic of Ireland and Northern Ireland and has acted as an arbitrator.

Areas of Expertise

Mediation

Ben is an accredited mediator and has mediated a range of disputes including:

- a dispute between a design and build contractor and its project architect;
- a dispute between a company and its former solicitors;
- a dispute between a contractor, its sub-contractors and its CAR insurers;
- a dispute between an employer and a design and build contractor;
- a dispute between two religious groups over the property of an unincorporated association.

In addition to mediation, Ben has acted as a conciliator under forms of contract made in the Republic of Ireland and Northern Ireland. He has a very “hands on” approach to mediation and likes to engage with the parties both before and (if appropriate) after the day of the mediation so as to ensure that the parties have the maximum prospect of achieving benefit out of the mediation.

Certainty in Certification – [2014] 9 JIBFL 620B

The decision of the Privy Council in *Fairfield Sentry v Migani* is of considerable importance to funds which employ certification mechanisms. It will also be of note in relation to instruments employing market-based triggers, for example convertible loan notes. Here we discuss the implications of the decision for certification and those responsible for issuing such certificates.
